EXPERIENCE

Excellence Technologies   March 2025 – Present
Jr. Web Developer
- Developed web applications using HTML, CSS, JavaScript, and JS Frameworks like Vue.js, React js.
- Collaborated with senior developers to build and optimize front-end components using React.js and Tailwind CSS.
- Debugged client-side issues related to web development projects.

PROJECTS

MTMPRO / *Vue.js, NestJs, Vuetify, Vuex, Mysql*
* Developed and implemented custom pre-loaded forms to streamline order creation and ensure consistent data capture across different garment types.
* Introduced tier-based user access (Free vs Premium) with feature gating and subscription logic to support business scalability and monetization.
* Resolved multiple front- and back-end bugs and refactored legacy code, significantly improving performance, maintainability, and overall code quality.

Gotobeat / *React, Remix, Tailwind, Shadcn.*
* A Single Page Application (SPA) to manage music events around the country
* Developed and implemented modern UI designs using reusable and scalable component structures to ensure consistency and maintainability across the application.
* Identified and resolved critical UI and functional bugs, enhancing overall performance, usability, and crossbrowser compatibility of the product.

Fansmaps / *HTML, CSS, Javascript*
* Developed a pixel-perfect, responsive frontend UI by converting Figma designs into production-ready web pages using HTML, CSS, and JavaScript.
* Implemented reusable UI components and layouts, ensuring cross-browser compatibility and consistent design fidelity.
* Collaborated with design specifications to enhance user experience, accessibility, and maintainable frontend code.
